RELEASE NOTES

Version 3.0

Document last updated: April 2, 2026

Reference: [sds-en-kubernetes_init_container-release_notes-v3](#)

Table of contents

- 1. SDS for Kubernetes init container 3.0 new features and enhancements 3
- 2. Previous versions of SDS for Kubernetes init container 4
- 5. Contact 7

In the documentation, Stormshield Data Security for Kubernetes init container is referred to in its short form: SDS for Kubernetes init container.

This document is not exhaustive and minor changes may have been included in this version.

1. SDS for Kubernetes init container 3.0 new features and enhancements

Dependency update

Security updates have been applied.

Stormshield SDK v4.0 has been integrated. It brings the following improvements and changes:

- Authentication via a JWT token,
- Support of attribute-based access control through the `--attribute` argument of the `encryptor.js` file,
- The tenant ID and the KMaaS URL are now required for decryption operations.

2. Previous versions of SDS for Kubernetes init container

In this section, you will find the new features from previous versions of SDS for Kubernetes init container.

2.0	New features
1.0.1	New features

3. SDS for Kubernetes init container 2.0 new features and enhancements

Dependency update

Security update and integration of Stormshield SDK 3.0.0.

Key Access Service (KAS)

SDS for Kubernetes init container now uses the Key Access Service (KAS) feature of the Stormshield KMaaS and no longer the Crypto API feature.

4. SDS for Kubernetes init container 1.0.1 new features and enhancements

Test reliability

Tests are now more reliable, which improves the user experience.

Documentation

The technical documentation concerning certificate management in a pod has been improved.

5. Contact

To contact our Stormshield Technical Assistance Center (TAC):

- <https://mystormshield.eu/>

All requests to technical support must be submitted through the incident manager in the private-access area https://mystormshield.eu, under Technical support > Manage cases.

- +33 (0) 9 69 329 129

In order for us to provide high-quality service, you are advised to use this communication method only to follow up on incidents that have been created earlier on https://mystormshield.eu.
